## Shaping the future of business performance

Litmus has undertaken a stringent and detailed market analysis to determine which specialist suppliers can be recommended to our clients. Auditel provides a range of services aimed at helping clients reduce their expenditure and improve the performance of their business.

### Auditel reduces business costs and saves business time.

We analyse your expenditure, audit your invoices and identify where you can make reductions whilst maintaining or improving services.

The categories examined will depend upon the nature of your business. The most common categories that can reap significant reductions in cost are as follows:

-  Utilities & Environmental
-  ICT (IT and Telecoms)
-  Business Support Services
-  Transport, Travel & Logistics
-  Finance
-  Property & Premise
-  Compliance

With the first pass analysis complete, we provide a report identifying opportunities and, if you decide to engage, we initiate tenders, seeking multiple bids for your business in each category.

Tender results are processed into a summary presented to you for decision - which offer do you want to pursue?

Auditel then manage the supplier relationship, check invoices, resolve queries and report to you on a monthly or quarterly basis.

**To take advantage of the special terms that Litmus have negotiated with Auditel then please contact Phil Silva – Partner, Central Services - [philsilva@litmuspartnership.co.uk](mailto:philsilva@litmuspartnership.co.uk) - who will make the necessary introduction.**
